Art Unit:

Claims 1-28 are presented for examination.

The amendments and remarks filed on March 1, 2002 have been received and entered.

Claims 1, 2 and 4-6 are again rejected under 35 U.S.C. 103 as being unpatentable over De Bruiju et al. For the reasons set forth on pages 2 and 3 of the office action of August 15, 2001.

Applicant's arguments and remarks have been carefully considered, but are not deemed to be persuasive. The prior art clearly teaches the use of imidazole in a contact lens formulation. The differences in the function of imidazole in a composition claim does not create a patentably distinct composition. The determination of optimum proportions or amounts is considered to be within the skill of the artisan in the absence of evidence to the contrary. Applicant has presented no evidence to establish the unexpected or unobvious nature of the claimed invention, and as such, the prior rejection for the composition claims sustains.

Claims 3 and 7-28 at present time are considered to be allowable.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit:

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
